Gentex Reports Second Quarter 2015 Financial Results

July 23, 2015

ZEELAND, MI--(Marketwired - Jul 23, 2015) - Gentex Corporation (NASDAQ: GNTX) the Zeeland, Michigan-based manufacturer of automotive automatic-dimming rearview mirrors, automotive electronics, dimmable aircraft windows, and fire protection products, today reported financial results for the three months ended June 30, 2015.

For the second quarter of 2015, the Company is pleased to report net sales of \$379.3 million, which was an increase of 12% compared to net sales of \$338.4 million in the second quarter of 2014. The Company's continued growth in sales has been accomplished despite worldwide light vehicle production that declined 1% in the second quarter of 2015 in the Company's primary markets versus the second quarter of 2014, in addition to foreign currency fluctuations that accounted for approximately 1% of revenue headwind during the second quarter of 2015.

The gross profit margin in the second quarter of 2015 was 38.4%, compared with a gross profit margin of 39.7% in the second quarter of 2014. The primary drivers affecting gross profit margin on a year over year basis were annual customer price reductions, unfavorable product mix and currency rate fluctuations, which were partially offset by purchasing cost reductions.

Operating income for the second quarter of 2015 increased 8% to \$108.1 million, when compared to operating income of \$99.8 million for the second quarter of 2014. Adjusted Operating Income for the second quarter of 2015 increased 12% compared to the second quarter of 2014.

Other Income in the second quarter of 2015 decreased 60% to \$2.3 million compared with other income of \$5.8 million in the second quarter of 2014, primarily due to lower realized gains on the sale of equity investments. In the second quarter of 2014, the gains in the quarter were higher than normalized levels given the strength in equity markets and the Company's re-balancing of its investment portfolio following the HomeLink acquisition in 2013.

Net income for the second quarter of 2015 decreased 3% to \$74.6 million compared with net income of \$76.7 million in the second quarter of 2014. Adjusted Net Income increased by 12% for the second quarter of 2015 when compared to Adjusted Net Income for the second quarter of 2014.

Earnings per diluted share in the second quarter of 2015 were \$0.25, compared with earnings per diluted share of \$0.26 in the second quarter of 2014, which reflects the December 31, 2014 stock split, effected in the form of a 100% stock dividend. The reported earnings per diluted share for the second quarter of 2015 decreased 4% on a quarter over quarter basis, however Adjusted Earnings per Diluted Share for the second quarter of 2015 were up 11% compared to Adjusted Earnings per Diluted Share for the second quarter 2014.

Automotive net sales in the second quarter of 2015 were \$370.5 million, up 12% compared with automotive net sales of \$329.6 million in the second quarter of 2014, primarily due to an 11% increase in auto dimming mirror unit shipments.

Other net sales, which include dimmable aircraft windows and fire protection products, were \$8.8 million in the second quarter of 2015, compared with \$8.9 million in the second quarter of 2014.

Other

During the second quarter of 2015, the Company repurchased 1.4 million shares for approximately \$25.1 million, and through six months ended June 30, 2015 the Company has repurchased 2.8 million shares for \$50.1 million. The Company intends to continue to repurchase additional shares of its common stock in the future depending on macroeconomic issues, market trends and other factors that the Company deems appropriate. As of June 30, 2015, the Company has approximately 3.4 million shares remaining available for repurchase under its most recently announced share repurchase plan.

Future Estimates

The Company's forecasts for light vehicle production for the second half and calendar year 2015 are based on the IHS Automotive July 2015 forecast for light vehicle production in North America, Europe, Japan and Korea.

Non-GAAP Financial Measures

The financial information provided is in accordance with Generally Accepted Accounting Principles ("GAAP"). Still, the Company believes that it is useful to provide non-GAAP: operating income ("Adjusted Operating Income"), net income ("Adjusted Net Income"); and earnings per diluted share ("Adjusted Earnings per Diluted Share") with the adjustments set forth in the "Reconciliation of Non-GAAP Measures" table below. This non-GAAP financial information allows investors to evaluate current performance in the Company's core business in relation to historic performance.

Management uses such non-GAAP information internally to help assess performance in the current period versus prior periods in the Company's core business. A reconciliation of the Adjusted Operating Income, Adjusted Net Income, and Adjusted Earnings per Diluted Share is provided in the attached "Reconciliation of Non-GAAP Measures" table below. Like all non-GAAP financial measures, these non-GAAP measures are intended to supplement, not to replace, GAAP measures. All non-GAAP financial measures are subject to inherent limitations because not all of the expenses required by GAAP are included.

Safe Harbor for Forward-Looking Statements

This news release contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The statements contained in this communication that are not purely historical are forward-looking statements. Forward-looking statements give the Company's current expectations or forecasts of future events. These forward-looking statements generally can be identified by the use of words such as "anticipate", "believe", "could", "estimate", "expect", "forecast", "goal", "hope", "may", "plan", "project", "will", and variations of such words and similar expressions. Such statements are subject to risks and uncertainties that are often difficult to predict and beyond the Company's control, and could cause the Company's results to differ materially from those described. These risks and uncertainties include, without limitation, changes in general industry or regional market conditions; changes in consumer and customer preferences for our products; our ability to be awarded new business; continued uncertainty in pricing negotiations with customers; loss of business from increased competition; customer bankruptcies or divestiture of customer brands; fluctuation in vehicle production schedules; changes in product mix; raw material shortages; higher raw material, fuel, energy and other costs; unfavorable fluctuations in currencies or interest rates in the regions in which we operate; costs or difficulties related to the integration of any new or acquired technologies and businesses; changes in regulatory conditions; warranty and recall claims and other litigation and customer reactions thereto; possible adverse results of pending or future litigation or infringement claims; negative impact of any governmental investigations and associated litigations including securities litigations relating to the conduct of our business. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date they are made. The Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as required by law or the rules of the NASDAQ Global Select Market. Accordingly, any forward-looking statement should be read in conjunction with the additional information about risks and uncertainties identified under the heading "Risk Factors" in the Company's latest Form 10-K and Form 10-Q filed with the SEC.
