### **GENTEX REPORTS FOURTH QUARTER AND YEAR END 2014 FINANCIAL RESULTS**

Zeeland, Michigan, January 28, 2015 - Gentex Corporation (NASDAQ: GNTX), the Zeeland, Michigan-based manufacturer of automotive automatic-dimming rearview mirrors, automotive electronics, dimmable aircraft windows, and fire protection products, today reported financial results for the fourth quarter and calendar year ended December 31, 2014.

For the fourth quarter of 2014, the Company reported net sales of \$350.4 million, an increase of 7% compared to net sales of \$326.8 million for the fourth quarter of 2013. The increase was behind the forecast provided at the beginning of the quarter primarily due to end of year inventory adjustments at certain tier-one automotive customers, that are not expected to continue. For calendar year 2014, the Company's net sales increased 17% to \$1.38 billion compared to \$1.17 billion for calendar year 2013.

The gross profit margin in the fourth quarter of 2014 was 38.4% compared with a gross profit margin of 39.4% in the fourth quarter of 2013, primarily due to higher than expected manufacturing costs related to new technology launches, the Company's inability to leverage fixed overhead costs because of the lower than anticipated sales levels, and annual customer price reductions, which were not fully offset by favorable purchasing cost reductions and improvements in product mix. The gross profit margin for calendar year 2014 was 39.2%, compared with a gross profit margin of 36.8% for calendar year 2013, primarily due to favorable shifts in product mix, the impact of the HomeLink<sup>®</sup> acquisition and purchasing cost reductions, which were partially offset by annual customer price reductions.

Net income for the fourth quarter of 2014 was \$71.0 million, up 2% compared with net income of \$69.9 million in the fourth quarter of 2013. Net income in calendar year 2014 was \$288.6 million, up 29% compared with net income of \$222.9 million in calendar year 2013.

After adjusting for the stock split, earnings per diluted share in the fourth quarter of 2014 were \$0.24, compared with earnings per diluted share of \$0.24 in the fourth quarter of 2013. Earnings per diluted share were \$0.98 for calendar year 2014, compared with \$0.77 for calendar year 2013.

---

Automotive electrochromic mirror unit shipments in the fourth quarter of 2014 increased 9% compared with the fourth quarter of 2013 and for calendar year 2014 increased 11% compared to calendar year 2013, primarily due to increased unit shipments of both the Company's interior and exterior auto-dimming rearview mirrors in all of the Company's primary markets. Automotive net sales in the fourth quarter of 2014 were \$342.4 million, up 7% compared with \$320.3 million in the fourth quarter of 2013, and for calendar year 2014 were \$1.34 billion, up 17% compared with \$1.14 billion in calendar year 2013.

Other net sales, which include dimmable aircraft windows and fire protection products, were \$8.0 million in the fourth quarter of 2014, up 24% compared with \$6.5 million in the fourth quarter of 2013, and for calendar year 2014 were \$35.4 million, up 27% compared with \$27.9 million in calendar year 2013.

"It's an exciting time for Gentex as we introduce new innovative products and processes into manufacturing and expand our capabilities for future growth," said Gentex Chairman of the Board and Chief Executive Officer, Fred Bauer. "However, occasionally with product innovation comes complexity. In the fourth quarter, we saw some of the challenges of that increased complexity manifest itself in the form of increased manufacturing costs. But, given our culture of performing in challenging environments, and history of simplifying the complex, we remain confident in our ability to perform in calendar year 2015" continued Bauer.

#### **Other Items**

In December 2014, the Company completed the previously announced two-for-one stock split, effected in the form of a 100% common stock dividend, entitling each shareholder of record to receive one additional share of common stock for each outstanding share of the Company's common stock, par value \$0.06 per share. This stock dividend was issued on December 31, 2014, to shareholders of record at the close of business on December 17, 2014. All share and per-share items represented in this press release (including the financial statements) reflect the two-for-one stock split.

In addition, the Company repurchased approximately 1.1 million shares of its common stock during the fourth quarter of 2014 for a total cost of \$20 million.
